

Questions to Ask Your Doctor About ED

- What is the cause of my ED?
- What treatment is right for me?
- What are the pros and cons of treatment?
- What kinds of improvements will I get from treatment?
- How long will it take for me to notice improvements?
- Am I taking medicines that could be causing this? Should I see a specialist? Can you recommend a doctor who has experience with ED?
- How can I talk to my partner about this problem?

Notes:
