Talk to Your Doctor or Health Care Provider

In providing good care, your doctor or health care provider may do exams or tests that Medicare doesn’t cover. Your doctor or health care provider also may recommend that you have tests more or less often than Medicare covers them.

Talk to your doctor or health care provider to find out how often you need certain exams or tests to stay healthy.

Get Test Results

If you don’t hear from your health care provider, call and ask for the results. Ask what the results mean for your care, and use that information to talk with your provider and make decisions. Don’t assume the results are fine if you don’t get them when expected.
